**RETAIL PRICING
PRINTING & PHOTO SERVICES**

(VALID FROM 1ST MAY 2009)

DIGITAL PRINTING SPECIFICATIONS

- **Media Accepted:** IBM Format CD, DVD, USB, Camera Cards (XD, SD, MS, SM & CF)
- **File Specifications:** sRGB Colour, No Layers, No Alpha Channels
- **File Format:** JPEG preferred. TIFF (not LWZ), or BMP (24 bit colour) accepted
- **Resolution:** 300dpi at Print Size (see pricelist for available sizes)
- **Colour Space Used:** SRGB (machine will convert if different however, ideally all files should be saved as SRGB to avoid colour shift/difference.)
- **Orientation:** Automatically Detected
- **Labelling:** Please place in folders according to output size (Eg 6x4", 5x7.5")
- **Cropping:** The Frontier System automatically crops about 2mm off each edge of every sized print that is outputted. As this cannot be avoided, please allow for this.
- **Unable to Print:** PSD, CMYK, Grayscale or unflattened images

1. Please take all measurements to the nearest 50mm.
2. Images being blockmounted are usually given a 5mm trim all round – please advise if your image does not allow for trimming.
3. All blockmounting is laminated (unless surface is unsuitable) and shrink wrapped for protection.
4. Blockmounting is to be dropped off and collected from Photo Magic unless otherwise organized
5. Bulk Blockmounting can be quoted when each item has the same measurements in quantities of 50 or more
6. Blockmounts include a black edge as standard, however a limited range of colours are available at an additional cost of \$7.50 per blockmount.
7. Standard edges are routed at 45 degrees unless a straight edge is requested.
